# KHALIL ITTO

**IT EDUCATOR | DESIGNER | TECH CREATOR**

*"I turn coffee into code and complex tech topics into easy-to-understand content."*

Ait Ourir, Marrakesh, Morocco • khalili2tto@gmail.com • IG: @khalil.itto

## ABOUT ME & THE CHANNEL

I am a 24-year-old multi-skilled professional bridging the gap between Education, Design, and Technology. I specialize in breaking down complex technical workflows—from managing self-hosted server environments to configuring local storage infrastructure—into accessible, highly practical content for an active Arabic and Moroccan Darija-speaking audience.

## AUDIENCE REACH & SCALE

My content strategy is highly diversified, with a massive primary focus on **Instagram**. The community actively engages across four major platforms, allowing for dynamic, multi-channel content distribution.

### INSTAGRAM (PRIMARY FOCUS)

**3.7M+ Views**

Last 60 Days Sustained Viewership

### FACEBOOK

**3.3M+ Views**

Last 90 Days Growth

### TIKTOK

**1.2M+ Views**

27.4K+ Likes (Last 60 Days)

### YOUTUBE

**41.7K+ Views & 623 Watch Hours**

Consistent Core Audience (Last 28 Days)

## AUDIENCE DEMOGRAPHICS

### Age Distribution

High-Intent Professional Bracket

| | |
|---|---|
| 25-34 Years | 35.4% |
| 35-44 Years | 33.1% |
| Other Demographics | 31.5% |

### Geographic Concentration

91.4% Primary Viewership in Morocco

| | |
|---|---|
| Casablanca | 32.0% |
| Marrakesh | 14.2% |
| Agadir | 10.9% |

## CONTENT PILLARS & TECHNICAL EXPERTISE

### Linux & Desktop Customization

Practical setup guides for Arch and CachyOS, showcasing system efficiency tools, terminal interfaces, and modern package managers like yay.

### Home Lab & Self-Hosting

Demonstrating network administration and containerized deployments using Docker, ZimaOS, AdGuard Home, and Beszel across distributed Proxmox hosts and NAS servers.

### Android Customization

Active contributor to the custom ROM scene, creating highly engaging content on firmware flashing, rooting, and OS optimization utilizing modern daily drivers (e.g., Galaxy S23 FE).

### Hardware & Network Optimization

Translating complex configurations—such as mapping standalone NAS platforms for repositories or explaining networking gear—into easily digestible, practical steps.

## PARTNERSHIP OPPORTUNITIES

Video content can be syndicated across Instagram, Facebook, TikTok, and YouTube for maximum brand reach. All pricing packages are fully negotiable based on campaign scope and deliverables.

1

### Dedicated Product Reviews

A comprehensive, hands-on review video dedicated entirely to showcasing your software or hardware (e.g., Mini-PCs, networking gear, peripherals). I will integrate your product directly into my daily workflow or home lab setup, giving my audience an authentic, highly practical demonstration of its value.

2

### Paid Sponsorships & Integrations

A high-impact, 30-to-60-second brand integration seamlessly woven into my regular tech tutorials or short-form Reels. This package is designed for maximum viewer retention and includes a prominent call-to-action, along with top-line links in my bio and descriptions to drive direct conversions.

3

### Month-Long Ambassador Campaigns

Designed for high-value hardware or premium tech products, this package builds sustained trust with my audience over a 30-day period. It includes a dedicated main review video, multiple short-form follow-ups highlighting specific features over time, regular platform story shoutouts, and persistent bio links.

# PROOF OF REACH & VERIFIED ANALYTICS

Direct exports from native platform creator studios validating recent algorithmic growth and channel performance across all networks.
